

G18ST 15-Amp, 7" Angle Grinder

Includes:

- Side Handle
- Two Wrenches

Features:

- **Powerful 15Amp motor** produces forcible 3,950W output for plenty of power, torque and durability for tough jobs
- **Lightweight design** for reduced fatigue and improved control
- **Class leading overload durability** for increased life and reliability
- **Halved stator design** creates better cooling efficiency and ensures high motor durability
- **Labyrinth construction** prevents dust and debris from entering motor bearings and ensures smoother operation and longer tool life
- **Armored coils protected by varnish, protection tape and long wedges** help to prolong service life by protecting from fine grinding particles
- **Removable side handle** attaches to the left or right of tool
- **Externally accessible carbon brushes** allow for quick and easy maintenance
- **Spindle lock** for easy wheel changes
- Download the [G18ST Tool Card](#)

Includes:

- Side Handle
