- **Lightweight**
(40% less weight than standard NiCd/NiMH batteries)
- **Fade Free Power**
(Consistent power with no RPM slowdown)
- **Overcharge & Discharge Protection**
(Circuit technology and universal charger ensures a full charge each time)
- **Interchangeable HXP Battery Platform**
(Existing Hitachi 14.4 / 18 Volt cordless with HXP Li-ion battery technology)
- **Cross Compatible Charger**
(Charges a range of Hitachi batteries)
- **Longer Life**
(3x longer than NiCd/NiMH batteries)
- **Internal Circuitry**
(Thermal protector & electronic switch for protection)
- **Power Ready**
(Even if stored for long period of time)
